

# Creating Neuroinclusive Spaces

## Practical strategies for accessible environments that support neurodivergent people

Amaze's Creating Neuroinclusive Spaces training session gives public-facing teams the knowledge and confidence to make environments welcoming for everyone. This foundational session explores how everyday spaces can unintentionally exclude neurodivergent people, and offers practical ways to strengthen inclusion.

### What this inclusion training covers

This workshop explores how physical, sensory and social environments shape Autistic and neurodivergent experiences. Participants assess their own spaces and routines to identify potential barriers, and learn practical, tailored strategies to make environments more accessible, comfortable and supportive for everyone.

### What you'll learn

You'll learn how to:

- understand neurodiversity and how to talk about it accurately and respectfully
- build insight into Autistic and neurodivergent experiences in everyday spaces
- recognise how environments and routines can unintentionally exclude neurodivergent people
- practical strategies that support inclusive communication and participation
- identify environmental barriers and learn to identify actions to reduce sensory load
- adapt communication styles to different needs
- understand the impact of sensory overwhelm and how it impacts engagement and inclusion
- apply practical steps to make information and communication clearer, more accessible and welcoming for Autistic people.

## Who should attend

- museums, galleries, theatres and cultural organisations
- libraries, community centres and public-facing services
- customer service/front-of-house teams
- venue, events and security staff
- community centres, libraries and public-facing spaces
- anyone wanting to create inclusive, welcoming public experiences.

## Course details and pricing

Duration: 2 hours

Cost: From \$2,450 + GST

Delivery: Your choice of a live webinar or in-person training
